

WOODCO

Heat and Power

E-COMPACT TWIST®

25 - 100kW HE

Condensing Pellet Boiler

103%

Efficiency

Available in a wide range of outputs

25kW → 100kW

Spiral heat exchanger
(patent granted)

Most Powerful Range of Condensing Pellet Boilers in the World

New for
2016

i-Gen Controller

The ultimate in boiler control, the i-Gen enables 'out of the box' installation with fuzzy logic PID control, meaning the commissioning process is greatly simplified. Combined with Smart Technology.

Twist Heat
Exchanger
(Stainless Steel)

Ball Valve
burner leak
detection

Generous
ash tray

2016 sees WOODCO introduce the E-COMPACT HE models. With its unique patented heat exchanger and burner design they are truly the most advanced biomass boilers on the European market today.

Stunning performance

- Condensation technology
- Unbeatable efficiency
- Optimal energy transfer
- Lowest emissions
- Wide temperature range
- Unique biomass boiler with spiral heat exchanger (patented)

Outstanding equipment

- Stainless steel heat exchanger (single)
- Lambda probe (optional)
- Automatic feeding system
- Spacious removable ash drawer
- i-Gen Controller
- Exchanger automatic cleaning
- Burner plate smart cleaning
- Automatic ignition system

i-Gen Features

- Remote monitoring (and control) facility
- 7 day programmer
- Monitoring report logs via e mail
- Comprehensive reports menu e.g. fuel usage report
- Easy to understand graphics
- Simple to operate in bright colour
- Low fuel level warning
- Notification to clean ash pan and service boiler

Technical specifications

Automatic auger
feeding

1

Bag filling integral
hopper

2

Automatic vacuum
suction feeding
