* Kleinere afstanden kunnen een lichte daling van de afgifte tot gevolg hebben.
 * Des dimensions inférieures peuvent diminuer légèrement l'émission de chaleur.
 * Kleinere Abstände verändern geringfügig Wärmeabgabe.
 * Smaller dimensions can decrease output.

N De afdichtstop 1/2" en ont-luchter 1/8" zijn bij Jaga sleutelvast ingedraaid. Tijdens het vullen van de installatie is nazicht op lekkage aanbevolen.

F Le bouchon 1/2" et le purgeur 1/8" sont montés et serrés en usine à la main. Pendant la mise en marche de l'installation il est recommandé de contrôler l'étanchéité.

D Der Blindstopfen 1/2" und Entlüfterstopfen 1/8" werden werkzeitig bei der Firma Jaga Schlüsselfest angezogen. Während des Füllen der Anlage ist eine Kontrolle auf Dichtigkeit unbedingt auszuführen.

E The drain cock 1/2" and air vent plug 1/8" are tightened up in the Jaga factory by hand. While filling the installation, control on leaks.
